A year ago last winter an effort was made to produce in Globe the musical composition called the Cantata of Esther. At that time a number of books containing the music and libretto of Esther were bought by persons interested in the performance and it is thought that many of these books may still be in existence. I would ask those persons that have such books and are willing to lend the same in the interest of another attempt at the production of the opera to leave them at the store of Messrs. Middleton & Allison, or to notify me where they may be called for. It is intended that the opera be presented for the benefit of the Episcopal church.

William Garland, president of the G. V. G. & N. Ry. company, arrived on Tuesday night's train and will remain here several days. Mr. Garland is very much gratified by the increased traffic over the railroad, resulting chiefly from the increased mining activity in the Globe district. The volume of business in May, 1899, was the greatest in the history of the railroad, and Mr. Garland believes that the record this month will equal, if it does not surpass that of May last year. The recent heavy traffic has taxed the capacity of the engines on the road, necessitating many repairs, which, however, will have been soon finished, when the train service will become more regular. A large force of machinists is now employed in the company's machine shops here.

High Standards.

The bird would never have uttered: "Music hath charms," etc., had he heard the rasping sounds emanating from the "thump boxes" and "hysteria-generating" rackets that are being maimed off on the uninitiated as first class pianos. They are gotten up with pretty engraved exterior cases to catch the unwary, but they will not stand this climate over three summers. You will make no mistake in selecting the famous "Behr Bros.," "Kranich & Bach," "Chickering," "Waldorf" or "Mason & Hamlin" pianos, all high standards and sold at \$350 and up, by
